There's nothing to cry about tonight  
All your thoughts are brave  
But they make you tired  
It's only us and the world is small and new  
Like I don't know anything  
But how I'm in love with you  
I'll hold you when the nights get long  
And hold you when the times get tough  
I'll love you when you've had too much  
And hold you when you can't get enough

Baby close your eyes  
Cause we are in the angles keep  
Push your worries all aside  
And let me rock you back to sleep  
There's nothing to cry about tonight  
It's not your job to know if everyone's alright  
Let me tell you how perfect you are to me  
And we're all that matters now as far as I can see
