I wanna see you stand tall
So I can smash you down
Give you a taste of the world you thought
Existed in dreams.

Prove your waste of existence
Can only last as long as your name.
I didn't wanna have to say this
I didn't want to make it public
Nothing too give
Nothing too offer nothing too live for
I'm so sick and so tired of people like you

I didn't wanna have to say

Scream at the top of your fucking lungs
Remember my name
Is that what you believe is that what you believe
Life won't wait and neither will I
Is that what you believe
Remember my name!

Prove your waste of existence
Can only last as long as your name.
I didn't wanna have to say this
I didn't want to make it public
Nothing too give
Nothing too offer
I'm so sick and so tired of people like you

Further along the line
You can't escape the will of lies
The will of hate combined with love
Will destroy your life
Nothing too give
Nothing too offer
I'm so sick and so tired of people like you
I can't sit back and listen to the shit
That you are calling words
Remember my name
