I, I can see clearly now
All the signs
I, I can see clearly my destiny

In my life in your life there no words
Only papers

I don't wanna die
Before I break your fuckin rules
In my heart I feel
That I can be forever real

In my life n your life
There's a fight
Inside out

[Talking:]
This is a new computer that made your life easy
So easy so easy like break a paper that's the perfect
solution for you no
More papers in your way

I am in rage
Against the empire of numbers
In my heart I feel
That I can be forever real

[Talking:]
We have a dangerous virus infect process is too fast,
international
Scientist said today that this new virus has no cure
