The scene an' sound
I'm goin' now
Back to that place
Another taste
Another chance
So come along
We're going back

I'm callin'
Are you ready?
I'm going there again
I wanna take you with me again
My friends

The heat, I can't forget it
I feel it in my veins
Come on it's time we did it
Begin again
We're goin' so get ready

I got you in my life
Tell me can you feel it, too?
Our place of love
Our place of light
Don't it make you feel alive?
You just gotta know I care
Our place of love
I'll take you there

Come on and get up and
Get up and get out and
Get up an let us know da cha wanna ride
There's no better time than now
(No better time and now)

The heat, I can't forget it
I feel it in my veins
Come on it's time we did it
Begin again (so let's begin again)
We're goin' so get ready
You're something special

I got you in my life
Tell me can you feel it, too?
Our place of love
Our place of light
Don't it make you feel alive?
You just gotta know I care
Our place of love
I'll take you there

I wanna see you smile tonight
I'll take you there again
I promise you
That's what I'll do

I got you in my life
Tell me can you feel it, too?
Our place of love
Our place of light
Don't it make you feel alive?
You just gotta know I care
Our place of love
You were there when my day it turned to night*
You were there like an angel in the light
Our precious love
You were there when it mattered in my life*
You were there so I gotta make it right
Our place of love
I'll take you there
