

The Explosion

"Play It Again"

Visit "[Play It Again](#)" on MotoLyrics.com

You're in your suburban home
Hanging on the telephone
I'm in my room playing records

It takes me to another world
Like holidays in the sun
Or when i am looking for a kiss

When i sit in my room
I listen to it over and over

[Chorus]

Play it again - i think i'm obsessed with you
Play it again - i can't get enough of you
Play it again - wearing out my sound system
Play it again - that song that i can't get off my mind

I met you in my wild youth
That's when i fell for you
But you were 2000 light years away

Well i guess i always knew
I'd have to say goodbye to you
Why is it always this way?

When i'm driving in my car
I listen to it over and over

[Chorus]
