Some things you get for free
Like floating along on the summer breeze
And getting knocked down by the gravy train
And burned right out in the pouring rain
And falling to floor when you closed the door on me
But somethings you've gotta pay to see
Chorus:
And I could search the world (search, search, search
the world)
And never find someone like you
And I could search the world (search, search, search
the world)
Second best would have to do
And I could search the world baby (search, search,
search the world)
And never find you, find you
I never knew where I was with you girl
I couldn't get back to the place you took me to - I was
lost
One day swimming in the perfect sea
The next day you could be drowning me
You can take me where you want
I'll do what you want me to, yeah
But I thought you'd never walk out on me
Chorus
And I could search the world (search, search, search
the world)
Don't know what I'm gonna do
And I could search the world (search, search, search
the world)
And never find you, find you
Chorus
And I could search the world (search, search, search
the world)
Don't know what I'm gonna do
And I could search the world (search, search, search
the world)
And never find you, find you
