I'm tired of being alone,
Missing someone I don't even know
Crazy but all I've been through
Was just another way of getting back to you

It's only a matter of time
Separate lives will be two worlds that collide
Don't go asking me why
I believe what I'm feeling inside

Chorus.
Somebody out there's got my name on their heart
Somebody out there is watching the same star
I'm counting the hours now and it won't be long
Till I find that somebody out there
Whose the one
Whose the one

I hear the words you don't say
Like a favorite song that I never play
Are you all that you seem
Or are you just a picture taken from a dream

I know that I'm not making sense
But I like what I see and I wanna see more
Love is my only defense
I believe that is what I am here for

Chorus.
Somebody out there's got my name on their heart
Somebody out there is watching the same star
I'm counting the hours now and it won't be long
Till I find that somebody out there
Whose the one
Whose the one

A thousand miles, a million smiles
How many more to go?
I'm shouting out, can't live without
The you I want to know

Chorus

Somebody out there's got my name on their heart

Somebody out there is watching the same star

I'm counting the hours now and it won't be long

Till I find that somebody out there

Somebody out there's got my name on their heart

Somebody out there is watching the same star

I'm counting the hours now and it won't be long

Till I find that somebody out there

Whose the one

Whose the one

Whose the one

Till I find that Somebody out there

Whose the one
