We belong
And no matter how we struggle through the years
We have found
We strong
Strong enough to withstand these tempest tears
So let them fall down
Chorus
A little rain is good for the heart
A little pain, suffer for the art
Of love
The art of love
The art of love
Work it through
Smoothing out the edges of our pride
Here together
I see you
And me emerging from the other side
Its made us better
Chorus
What doesn't kill us
Makes us stronger
This is what we say
So hold on 'till the I'll wind blows away
Chorus
