So I've become the roaming outcast  
Omnipresent like meteor dust  
I call upon comets to strike down  
Everything that makes me frown

In this world of tongue and minor deed  
Where they harvest a hallow fruit without seed  
Where kings guide fools eyes wide shut  
My scythe shall leave these plains clear-cut

At the edge of my very life path  
At the dawning of endless mind wrath  
I cast away my rusted blade  
For that inner hero's gonna fade  
There's a swarm of insects approaching  
With a virgins mind they're poaching  
Sent from the forked tongue divine  
The stinger's poison will be mine

Swarmwalls pile up towards the sunwheel  
Hive falls black up a world of no heal

Those years I have wasted  
Through decades of longing  
But now I will celebrate my rebirth  
The cocoon is open and I'm gonna rise  
And my wings beat will cause the greatest gale on  
Earth

My scourge will disinfest the rope of sand  
I cure this errant planet in my hand  
A bladestorm born out of drone wings  
A black rain from scorpion stings

At the edge of my very life path  
At the dawning of endless mind wrath  
I cast away my rusted blade  
For that inner hero's gonna fade  
There's a swarm of insects approaching  
With a virgins mind they're poaching  
Sent from the forked tongue divine

The stinger's poison will be mine

Swarmwalls pile up towards the sunwheel  
Hive falls black up a world of no heal

Those years I have wasted  
Through decades of longing  
But now I will celebrate my rebirth  
The cocoon is open and I'm gonna rise  
And my wings beat will cause the greatest gale on  
Earth
