There's a picture of a girl in my head, a real life  
tragedy  
I'd like to think that I imagined it, but it happened to me  
And I think I actually saw her once, right in front of my  
face  
I turned around to make sure that I was awake, and she  
turned and walked away  
Where did she go? I want to know  
Did anyone notice? Did anyone see her when she  
walked away

When I saw her out in front of my house, in the middle  
of the night  
I was half-asleep in my underwear. She was under a  
streetlight  
I ran downstairs just as fast as I could, with only my  
socks on  
I ran outside, the sprinklers came on. I turned and she  
was gone  
Where did she go? I want to know  
Did anyone notice? Did anyone see her when she  
walked away

I stood out there on the lawn with my wet socks and a  
broken heart  
I tried to get in my dad's car, but the door was locked  
I just stood there staring at the light, locked outside  
Where did she go? Did anyone see? Did it really  
happen or was it on TV
