It's a lot of pretty ladies on stage tonight  
It's a special occasion tonight yeah  
Looks like I'm in the right place tonight  
And I see one that I'd like  
She right, she got it all  
And it look like she got her jeans painted on  
From me you can get every single thing you want  
Showing off your body girl  
You better take it easy  
Before they see me staring at you, believe me

No no no  
They don't make 'em like this no more  
From your head down to the floor  
You got it all  
No flaws involved  
Ain't nothing that you missing  
No no no  
They don't make 'em like this no more  
From your head down to the floor  
You got it all  
No flaws involved  
Ain't nothing that you missing

If I had to say I love 'em this way  
Pretty girl with her hair half chopped off  
She got it going on  
Not just in my eyes babe  
You know you're a crowd favourite baby  
But I seen her first  
Don't cash it up  
Cause I will make it work  
I'm coming on strong  
Girl this is your song  
Go ahead sing along

No no no  
They don't make 'em like this no more  
From your head down to the floor  
You got it all  
No flaws involved

Ain't nothing that you missing  
No no no  
They don't make 'em like this no more  
From your head down to the floor  
You got it all  
No flaws involved  
Ain't nothing that you missing

No no no  
They don't make 'em like this no more  
From your head down to the floor  
You got it all  
No flaws involved  
Ain't nothing that you missing  
No no no  
They don't make 'em like this no more  
From your head down to the floor  
You got it all  
No flaws involved  
Ain't nothing that you missing
