

The Explosion

"Together"

Visit "[Together](#)" on MotoLyrics.com

You should see me walking with my girlfriend
You would swear we both were one, and it's something
else, too
?Walk so close, ?can't tell where one ends, the other
begins
So much love, ?just ain't no way to tell

CHORUS:

You could see we make it together
You could see the love look in our eyes
You could see we make it together, forever

You should love someone the way that I do
Don't you know that your whole life's a stage
Tryin' to find somebody who's gonna love you
Love you like mine, if only for your own sake

(chorus)

You could see a long-time love in action
We're living and we're loving our lives away, yeah

(instrumental)

(chorus)

(instrumental)
