Torment Me  
Blacked  
Softied  
Don't neutralise in thoughtfulness  
Strangeing  
The water  
Pollute me  
By the love they lost for you  
For you

Drainageity  
The senescences  
Running from the sacrifice  
The got you  
At fin foyne  
Letting you  
For those who died, who died

Torment me

Lusting yourself with emptiness  
You can't connect the dreams they sent  
Doing the things lay they all expect rage  
Free from all the thoughts they had

Suicide
