Out in the wild in a forest so deep  
Walk unsuspecting, not knowing all that creeps  
It slithers and snakes through all the high grass  
But you're not careful, he bites your ass  
He lies in wait for victims to walk by  
To strike in hatred and then you will die  
You fall to the ground to lay and wait  
To fulfill the pleasure of all who hate

Seeking shelter from the blaring sun  
The dessert, hot and balmy  
You're becoming well done  
You find shade at one lone tree  
But to your misfortune it's not as you see  
For on the limb all curled up tight  
Is the killer scaled one ready to bite  
You hear a hissing up above your head  
But you're too late, and now you are dead

[Chorus:]

You have fallen upon venomous death  
Weary traveler you should've never left  
With the bite from the serpent's fang  
Your soul shall never rest

Trudging through swamps on a cold rainy morn  
Exiled to this place out of hateful scorn  
You slip and you fall in mud up to your nose  
The slime overcomes you, you struggle for your hose  
The thick of the moment you notice it moves  
As it turns to look straight in the eyes  
The snake coils around you like vines to a pole  
Crushes like vice you sink in the hole
