For what I believe in I must strive
But there's too much devil in disguise
In their eyes they would extinguish our lives
Hypocrite, you lie, you won't lock off our rise

London's black up so my blood runs hot
Jente con sangre caliente
Till I die I won't stop
But my heart's still cold
My soul's colder
Can't locate what I held to make me stronger

I never ask for a thing from this, I'd never take
Every step travelled is a step we fight to make
Now it's slowly changing, we're doing the wrong
Can't let the people's power go to corrupt ones

Some say hardcore is in their hearts
Can't understand why they still try tear it apart
In their soul they would extinguish the fire
Soldout, your life, you won't stop us reaching higher

London's black up so my blood runs hot
Jente con sangre caliente
Till I die I won't stop
But my heart's still cold
My soul's colder
Can't locate what I held to make me stronger

Como llegamos a este punto
En este acunto
Situation mas sucio
I see the youth with new fire in their hearts
And it's them who'll elevate this battle to new parts
Against false words, hollow promises and smiles
Individuality again will rise
For our own sake this melting pot must survive

Warnings we choose to disregard
Don't fear the unknown in your heart
Full time we have to think smart

Never let this world tear you apart
Never again will I take no forked tongue talk
Stand like rock, search your heart
Born suffering, true strugglers
Always leave a mark
