I thought I knew.
Everything about you, down to your last move.
I thought you knew.
Everything about me, like you were my diary.

Time, time, ticking by, looking for the reasons why.
You left, the day you...

Come back, around.
The World's Gunna End, the World's Gunna End, now.
When you say, you're wrong.
The sky will fall down, the sky will fall down, now.
That day won't come.
We're over and done.
The World's Gunna End, the World's Gunna End, now.

Your twisted ways.
[Megan & Liz]
When nothing knew.
And I thought I knew.
How to handle it this time.
Thought I'd be doing fine.

Time, time's, ticking by, still looking for the reasons
why.
You left, the day you...

Come back, around.
The World's Gunna End, the World's Gunna End, now.
When you say, you're wrong.
The sky will fall down, the sky will fall down, now.
That day won't come.
We're over and done.
The World's Gunna End, the World's Gunna End, now.

Now. Whoa! Whoa!

Is the Sun, really going now?
Am I sure I don't want you around (Don't want you
around! ?)
If the Moon fades to black.

Oh, are you really gonna come?
The day you...

Come back, around.
The World's Gunna End.
The World's Gunna End, now.
The World's Gunna End, now!

Come back, around.
The World's Gunna End, the World's Gunna End, now.
When you say, you're wrong [Liz:] You're Wrong!
The sky will fall down, the sky will fall down, now.
That day won't come.
We're over and done (Yeah we're done, yeah we're done.)
The World's Gunna End, the World's Gunna End, now.

The World's Gunna End.
The World's Gunna End, now (It's finally gonna end, it's gonna gonna end Now.)
The World's Gunna End.
The World's Gunna End, now (My World, my world.)
The World's Gunna End.
The World's Gunna End, now (Our World, our world.)
The World's Gunna End.
The World's Gunna End, now (Our World, our world.)
The World's Gunna End.
The World's Gunna End, now (Our World, our world.)
The World's Gunna End.
The World's Gunna End,
Now.
