Here I stand around me people that I hate

I say a word and feel misunderstood

Don't get me wrong, I don't wanna be your friend

I never tried that, no I never could

I won't change for you, I'm no genie in a bottle

'Cause you're the kind of person I don't like

I'm so sick of you, all you narrowminded people

You live your life and I live mine

Well of course I am friendly once again

But you just lift your nose as you pass by

Well I don't care I never liked you anyway

Your point of view is worlds apart from mine
