(1)

Step by step my life went down  
only troubles all around  
It seemed to me that darkness has no end  
I used to climb the mountains high  
I thought that I can reach the sky  
searching for another promised land

(Chorus)

Only heaven heard my cry,  
I prayed the Lord to take me high  
Now he's the wind beneath my wings  
Now I can fly  
Come and give me your hand (come on)  
I'll show you the land (come on)  
of your dreams in the night  
we will fly side by side  
Let me open your heart (come on)  
give your life a new start (come on)  
turn the river of tears to an ocean of light

(2)

Walking in the darkest night  
looking for a guiding light  
I found the meaning of my life today  
Always knew I've got to fight  
for a holy star that shines so bright  
even if it's only a heartbeat away

(Chorus)

Only heaven heard my cry,  
I prayed the Lord to take me high.  
Now he's the wind beneath my wings  
Now I can fly  
Come and give me your hand (come on)  
I'll show you the land (come on)  
of your dreams in the night  
we will fly side by side  
Let me open your heart (come on)  
give your life a new start (come on)  
turn the river of tears to an ocean of light

## Ocean of Light

Now I know I'm not alone  
Faith in love has made me strong  
I've got a friend who gave me a helping hand

### Chorus

Only heaven heard my cry,  
I prayed the Lord to take me high.  
Now he's the wind beneath my wings.  
Now I can fly  
give me your hand (come on)  
I'll show you the land (come on)  
of your dreams in the night  
we will fly side by side  
Let me open your heart (come on)  
give your life a new start (come on)  
turn the river of tears to an ocean of light  
Come and give me your hand (come on)  
I'll show you the land (come on)  
of your dreams in the night  
we will fly side by side  
Let me open your heart (come on)  
give your life a new start (come on)  
turn the river of tears to an ocean of light
