"Only For You"

From the town I live within
leave the gates and you begin to see
the other side of time

Though I dream in black and white
still the candle's burning bright

Another day has passed us by

Yet I know our time will come

All my life

I've been searching all my life

Oh, can you hear me

(chorus)

Only for you (listen can you hear me)

Only for you (listen can you hear me)

Only for you (can you hear me)

Only for you

Eagle's up and flying high

from the mountains to the sky

Yet he always will return to you

(only for you)

It's my one and only dream

It must be my destiny

It keeps me hanging on

until I finally reach my home again

All my life

I've been searching all my life

Oh, can you hear me

(chorus)

Only for you (listen can you hear me)

Only for you (listen can you hear me)

Only for you (can you hear me)

Only for you

I feel no pain (like pictures on the wall)

No loss, no gain (they're all about to fall)

I feel the strength (of these pictures on the wall)

All my life

I've been searching all my life

Oh, can you hear me

(chorus)

Only for you (listen can you hear me)

Only for you (listen can you hear me)

Only for you (can you hear me)

Only for you
