If my lover comes back all the promises will return.  
We will forget our pain.  
Come back my love I miss you more than ever.

Rap

Oh baby baby please give him a chance to express his  
love so you can both advance.  
He didn't mean to hurt you because you know he's in  
pain, think back when your hearts first met in Spain.  
Unbreak his heart, don't let your love go if your feelin?  
what he's saying.  
Everybody say ho ho. Now you know that his love is  
the real deal so feel his heart tearing apart come  
back so it heals. If you give him a chance he'll try  
to make it alright yo hayate ya alby can you hear him  
tonight.
