I see when I look at you, C'mon yea

I see when I look at you, C'mon yea

I see when I look at you, C'mon yea
Things can get better if we talk to each other
if we bind our souls,
if we bind our bodies,
if we bind our thoughts,
we can live in harmony
Do you believe in destiny,
I do when I see that she's smilin' at me
makin my life turn around
I wish I could be with you, near you
and hear your heartbeat next to mine
I wish I could be with you all the time

Chorus:

I see I see I see when I'm lookin' at you I would love no
woman than you (No one could make me feel the way
you do)

I see I see I see when I'm lookin' at you I would love no
woman than you (No one could make me feel the way
you do)

Rap:

Life brings you down in every Situation, Dont get weak
dont lose ya concentration..... I'm da man who always
be there, If you need me, I am the one who will always
care....C'mon

Chorus:

I see I see I see when I'm lookin' at you I would love no
woman than you (No one could make me feel the way
you do)

I see I see I see when I'm lookin' at you I would love no
woman than you (No one could make me feel the way
you do)

I see I see I see when I'm lookin' at you I would love no woman than you (No one could make me feel the way you do)

I see I see I see when I'm lookin' at you I would love no woman than you (No one could make me feel the way you do)

Rap:

It comes straight outta my Heart, You so wonderful, Let me be your guard,
Be being ya lovin endlessly Sweetheart,
All the time you are on my mind, Try to walk but I Im weak on my feet But
it's hard to go some time,
you the sun that keeps me going on,, till then you gon' shine
on me, leading my way
right into your heart
I love hearing ya voice for hours,' singing like an Angel

Chorus:

I see I see I see when I'm lookin' at you I would love no woman than you (No one could make me feel the way you do)

I see I see I see when I'm lookin' at you I would love no woman than you (No one could make me feel the way you do)

I see I see I see when I'm lookin' at you I would love no woman than you (No one could make me feel the way you do)

I see I see I see when I'm lookin' at you I would love no woman than you (No one could make me feel the way you do)

.....When I see you
