I've been staying up all night to kill the day
You're the one to blame
It drives me insane

If you're seeking closure then I can't help you babe
Surprised, but I may say
Today is the day

I'll be knocking on the door
Keeping everything alright
Until the morning light
Is creeping in

If you want to have it
You want it
You got exactly what you asked for
I'm waiting
You have me right here where you want me

You want it
You got exactly what you asked for
I'm waiting
You have me right here where you want me

Counting seconds, saving minutes, lapsing hours
She is so sour
I taste her disdain

If you would hold me
A joke can let you down
The crowds would scream along
"The king has been slain!"

I'll be knocking on the door
Keeping everything alright
Until the morning light

Is creeping in

If you have to have it
You want it

You got exactly what you asked for
I'm waiting
You have me right here where you want me

You want it
You got exactly what you asked for
I'm waiting
You have me right here where you want me

I'll just wait here 'till I get my own way
Settle down and take a ride

If we're gonna empty the
Clip of this gun

I hope you intend on having good aim!

I'll be knocking on the door
Keeping everything alright
Until the morning light
Just creeping in

But if you have to have it
You want it
You got exactly what you asked for

I'm waiting
You have me right here where you want me
You want it
You got exactly what you asked for

I'm waiting
You have me right here where you want me.
