With a black heart undercover, watching you sleep
every night
I wish you'd watch me too
We're made for each other
Honey if you only knew, every night I'm watching you

Shut up you're talking too loud for me to not listen
This operation's gotten old, the face I stole, the gun of
Lost shot through your soul
And all that's left is empty holes

With a black heart undercover, watching you sleep
every night
I wish you'd watch me too
We're made for each other
Honey if you only knew, every night I'm watching you

Mom and dad can't help you anymore
Get in the car we'll drive far to the end of the shore
Under the docks, on top of the rocks, knock knock
knock knock
Why the fuck are the doors locked?

Maybe she forgot about our talks, or maybe I'm
mistaken
But I swear to God that she's not getting out of this
Without some kind of explanation
Oh I'm straining on your patience, maybe scaring you a
little

Just because I came to visit doesn't mean you have to
hide
I'll be waiting on the side of your house
With an empty body bag
And a loaded .45

And now you won't forget
My fucking name
And now you won't forget
My fucking name

You're tearing me up

Inside my mind
You walked in front
I ran behind
