Back and forwards, you think I'll stand beside you?  
Misproportioned, unattended, we hide them.  
Don't try to say anything baby,  
Stitched your lips, to constrict languages, that bite at  
your tongue.

Get up and kick up a storm,  
Sit up and pin up the whore!!!  
Exhale the pressure, provide a source...  
Get up and kick up a storm,  
Sit up and pin up the whore!!!  
Straight to the bloodstream, blistered and sore...

I'll stay silent as my mind grows violent.  
How will you sleep sound when you have no air in your  
lungs?!

Wide eyes, tearing up...

Well I've been thinking all night,  
And I think it's time to see...

YOU'RE MINE!!!

STICK 'EM UP!!!

Such a pretty face, such a shame that it's not gonna  
smile today!!!!!!

Get up and kick up a storm,  
Sit up and pin up the whore!!!  
Exhale the pressure, provide a source...  
Get up and kick up a storm,  
Sit up and pin up the whore!!!  
Straight to the bloodstream, blistered and sore...
