"The Big One Is Coming"

Visit "[The Big One Is Coming](#)" on MotoLyrics.com

The big one is coming
The land is gonna split
Tsunami's gonna hit
The sky turn all black
And the water come rushing in
The big one is coming
The air is getting hot
And all the plants begin to rot
The sky turn all black
And the water come rushing in
And when I'm called to judgement
I don't know what I'll say...

"I did not know that it was a crime
To live from day to day" ?
The big one is coming
The land is burning dry
And the seas are on the rise
The sky turn all black
And the water come rushing in
The big one is coming
The power is gonna fall
Right on top of us all
The sky turn all black
And the water come rushing in
