Baby, when I look into your eyes I can't see
Mama, what about has got a hold on me ?
Sweetness, I'm addicted to you, gotta have you by my
side
No other girl will do
You are in my system, you are driving through my
veins
If I don't get more of you, I think I'll go insane
You are my fix, and I need you NOW!

Mama, I get the shivers and shakes
I can't wait until the next time love we make
Baby you must understand, I have got to be your lover
Gotta be your only man
Cause you are in my system
You are driving through my veins
If I don't get more of you, I think I'll go insane
