so come away with me
i'll be your donnie reb
i'll make it all a dream
(i'll) take back the things he said

you see, he don't see what you see
you know, they don't know what you know
what i know
what we know

i feel the world is ending
would you like to take a walk?
because when you're walking with me
the world's where it belongs

well, you called me a safe place
well, i called you my only grace
my only grace

so kiss me now it's over
i sent the engine back
tomorrow won't remember
but i loved you
loved me back.
