everything that I've done
everything that I've tried
has led me on this long road
until we all collide
but I was the one who cared
when you were the one who cried
so now that you're listening
do you want to leave with me
tonight?

I can't take it all in right now
but if you just give me time
explain to me as if a stranger
look at all the obvious dangers
no sense might be your guide
nothing you can do will save me,
all you can do is cry

anything that I've done
anything that I've tried
has led me on this long road
until we all collide,
well I was the one who cared
and you were the one who cried
so now that you're listening
do you wanna leave with me
tonight?

I think the past has come
I think the past has come back to haunt you
come back to haunt you

I think the past has come
I think the past has come back to haunt you
come back to haunt you

I think the world is cold
but I could keep you here right now until the sun's up

I think the world is cold
but I could keep you here right now until the sun comes
up

until the sun comes up
until the sun comes up
until the sun comes up
until the sun comes up
