Born here; damned here
Trapped where madness never stops
Crazy people, blood and fortune on the streets
No escape from violent twilightzone
Puked and shitten every curb puked
And shitten every night

Cannot reach a higher level
lost my life in this sick ground
Cannot find the real exit
All what happens beats in my heart
Berlin-my destiny

Fight the suckers back with friends
A search in places where no law is strong
Build this pack up with my friends
That's the fuck where I belong
