[Verse 1]

With some twenties, bout to hit up the streets and get
on some thugness

Loveness, the hoody on, carry the slug swift

I love this, you should be ducking when I pump this

Dump this see people jumpin up in the dumpsters

Busters, you bes'ta listen because I've done this

Numb wrist, give it to everybody you run with

Hung with, the same people you gone get hung with

Numbed with, son'd with, guess what I've done this

[Chorus]

Money - COOL

Girls - COOL

Diamonds - COOL

Cars - COOL

[Verse 2]

With some twenties, bout to hop out the whip and throw
on the ice grill

Like I drink a bottle of belvi' chased it with NyQuil

And I'm parle'yin on the celli', see how my ice feel?

The way it go, they wanna know if I pay a light bill

Don't you ever think about bumpin me cause I'm quite
strill?

Then I go fold me a brother faster then light will

If da' car don't get to whippin, ??? the bike wheel

In for a slight heel

Peace brother, it was quite real

How you figure the night feel

If you breathe, then it might heel

Or I'm leavin it tight steel

And I'm holding a tight wheel

?? whores shoe

Then I come back and toss too

This what you walk through
Megaphones you talk through
Have a bitch walk, when the angel carrying pitchforks
Mad cause we banging on they head with them six-
fours
And we got them sick whores
And they sipping liquor
And we finna get more, get more..

[Chorus]
Money - COOL
Girls - COOL
Diamonds - COOL
Cars - COOL

[Verse 3]
With some tie I'm bout to go to the party and get my
drink on
But I can't go to the party without my mink on
Links on..
Rings on..
Both of my earrings on
Don't you hear the theme song?
Time to get my lean on
Catch hype flight at the party but I don't mean wrong
I'm just trying to tell everybody, listen my team strong
We gone dream on
Didn't I say my team strong?
Don't you see the beam on?
Time to get my steam on

[Chorus]
Money - COOL
Girls - COOL
Diamonds - COOL
Cars - COOL

[Verse 4]
Is I'm drunk? I like to ride in the Benz but stay in the
back though
Hat low with gat on
Run through with that slow
Cap yo, ass
Pat ya down for cash
After I find the stash
Put the gat down and then dash
Check the moves so swift
Who you gonna get?
Got the mova on the hip
And it's you I'm gonna split
Is it you I'm gonna hit?

Even if I miss ya
Get somebody that's with ya
So you get the picture
Think its a game
Lemme entertain
Let ya people explain how I crept up with them thangs
How I snuck up in the game
The best wasn't the same
They covered they chest in blang
He's nothing to mess with mane'
Stuck up in the game, I had to trust in the name
I had to lust for the fame, I'm busting before I aim
Disgusted at all the things
I'm hustling for the team
I'm struggling for the cream
It musta been for the dream

[Chorus]
Money - COOL
Girls - COOL
Diamonds - COOL
Cars - COOL

[Outro]
Yeah its smooth, cause you wouldn't wanna ride with
me
??? Come Back and you gone wanna spot with me
How many of my people gonna go get high with me?
(High With Me[Repeated 4x])
How many of yall people that's gone ride with me?
How many of yall people that's gone get high with me?
How many of yall people that's down to ride with me?
(Ride With Me[Repeated 4x])
(Screaming)
