I found a switch,
You Turned it on
I Hit the ditch
You carried on
I was so near
Now you're so far
Are you quite sure
Just who you are
O I IIII
O you could chose a friend but you don't seem to have
the time
O I IIIII
Wonder if you ever get to say what's on your mind
O take a little time,
come on take a little time
I love you when you call
I love you when you call
I love you when you call
But you never call at all
So what's the complication it's only conversation
I love you when you call
But you never call at all
Remember me, I used to be the best time buddy
That you couldn't wait to see
But getting old, it takes it's toll
And hearts getting broken lead to people growing cold
O I IIIIII'm
Flipping with a coin that's got a tail on either side
O I IIIIII'm
Gonna be the one who makes you stop and realise
You could have it all
Yea, We should have it all
I love you when you call
I love you when you call
I love you when you call
But you never call at all
So what's the complication it's only conversation
I love you when you call
But you never call at all
Yea I wonder where you been
Yea I wonder who you seen

And I hope you find your train
When you do a living and hope it's all it seems
I love you when you call
I love you when you call
I love you when you call
But you never call at all
So what's the complication it's only conversation
I love you when you call
But you never call at all
