

Red West, The "Days Die"

Visit "[Days Die](#)" on MotoLyrics.com

Take one down, break it and give it away
Doesn't really matter now
It's just a phase, it's just a game, yeah
Sometimes the plans you make are mistakes
And it all turns out the same

Days die but we're gonna live forever
Days die but we'll go on together
Days die but we're gonna live, we're gonna live, we're
gonna live forever

Put another dollar down, words are falling all around
At least we got something to say
Iron all the creases, picking up the pieces
Watchin as the sun goes down, waiting for another
round
Waiting for another day

Days die but we're gonna live forever
Days die but we'll go on together
Days die but we're gonna live, we're gonna live, we're
gonna live forever

All we have is wasted time
But that's all right, yeah that's all right
All we have is wasted time
But that's all right, yeah that's all right

[polka-ish interlude]

Days die but we're gonna live, we're gonna live, we're
gonna live forever
