I'm a knight in this past place (x2)

I'm a knight in this past place

Riding on a horse

Through fields and streams

On a plotted course

Gonna gain the affection

Of the crowned king's daughter

But first, I be needing

The approval from her father

CHORUS

I rode all night through ghosts and goblins

Treacherous terrain and thieves that be robbin'

Until I reached the castle and this is what he said,

"If you wanna wed my daughter then the dragon must be dead"

So I grabbed my horse and grabbed my shield

And trampled back down that very same field

I trampled for a spell and when I reached the cave

I got up off my horse so the dragon could be slayed

Now the dragon fought hard, but I fought harder

He fought smart but, I fought smarter

He took away my sword and I was really scared

But I brought along my knife so I guess I was prepared

I stabbed him in his eye

He was open to the gash

Watched the dragon die

And lit up some of my stash

Feeling stimulated I thanked god for my life

And returned to the castle so I could claim my wife

CHORUS

I rode all night through ghosts and goblins

Treacherous terrain and thieves that be robbin'

Until I reached the castle and this is what he said,

"You've killed off the dragon, so my daughter's in her bed"

And I walked upstairs reflecting on my luck

And went into her room so I could start to fuck

But when I got in, and I saw all her features

My knees got weaker and I cried out, "What a creature!"

So now I'm high like bleachers and I'm running from

the guards
Cause her face was all scarred and her body full of
lard
So if you're in the past and you want a piece of ass
Whatever they ask look before you do the task
I said so if you're in the past and you want a piece of
ass
Whatever they ask look before you do the task
-Translation by David Blecher and Adam Schmalholz
