Big time! Big time!

Welcome to a party where everyone's invited
Mr Memory and Mrs Destiny's excited
Everybody's here, people everywhere having fun
You may call it life, I would call it my fiesta
A life long celebration 'til the very last siesta
Dinners will be served, wishes will be heard and
fulfilled

So boogie to the beat, and feel your body heat
The temperature is rising to a hundred degrees!

This is a big time, ramalah, party going on and round!
(Big time, big time ramalah)
A big time, ramalah, party's over everyone!
(Big time, big time ramalah)
So boogie to the beat, and feel your body heat
The temperature is rising to a hundred degrees!

Big time!

The scare is running high, we could make it last forever
Mr Memory and Mrs Destiny together, looking kind of
sweet
Dancing cheek to cheek, my oh my!
Get in to the groove from the belly down and waist up
Shake it baby, move, don't do never ever stop
Everybody's here, people everywhere, having fun!

I give my life to you, and you and you and you!
The boogie-woogie-flue is gonna catch all of you!

This is a big time, ramalah, party going on and round!
(Big time, big time ramalah)
A big time, ramalah, party's over everyone!
(Big time, big time ramalah)
So boogie to the beat, and feel your body heat
The temperature is rising to a hundred degrees!

Big time!

(Come on, babe!)
(Hahaha!)

This is a big time, ramalah, party going on and round!
(Big time, big time ramalah)
A big time, ramalah, party's over everyone!
(Big time, big time ramalah)
So boogie to the beat, and feel your body heat
The temperature is rising to a hundred degrees!

This is a big time, ramalah, party going on and round!
(Big time, big time ramalah)
A big time, ramalah, party's over everyone!
(Big time, big time ramalah)

Big time!
