Alison, Alison why don't you answer when I call?
Alison, Alison of course for you I had to fall.
Alison, Alison don't you leave me hanging on.
Alison, Alison don't you know I wanna come along. (?)
Oh Alison!

Things aren't the same since you came around.
Things aren't the same when you're not around.

Alison, Alison are you high in the sky tonight?
Alison, Alison why don't you just make it right?
Alison, Alison don't you care that I'm down and out?
Alison, Alison don't you know what it's all about?
Oh Alison!

Things aren't the same since you came around.
Things aren't the same when you're not around.

Things aren't the same since you came around.
Things aren't the same since you're not around.
