Did I see you in the window when I left
Did I hear you in the bedroom where we wept
And if I reach my hand to touch you now
Will you shy away
Am I still the one who made you laugh
Once upon a day

And when you're out there on the desert looking back
Will you ever stop and wonder how we lost track
Of the time that we took for granted then
I know how time can fly
When you're out on the road killing yourself
One day at a time

Just get out of my head
Just get out of my head
Just get out of my head
Just get on, get on out of my head
