"A Year"

Visit "[A Year](#)" on MotoLyrics.com

It's been a year, and i'm in love
I just can't get enough
I made my choice, my choice is now
Stand up straight don't look, no cannot turn around
(I know who i've become today)

I spent a week down South
Reflecting back on how
The last year has gone
And you and me could reach the stars
(I know who i've become today)

We've only got 1 life
So let's make it our best
You've been here for a year
Will you be there for the rest?

We've gone so far since VALENTINE
Make a wish look at the time
I made a wish, my wish was you
And it looks like came true
(I know who i've become today)

We've only got 1 life
So let's make it our best
You've been here for a year
Will you be there for the rest?
