I am moved by the sun  
Cause everyone before me has seen the same one  
And I can't wait to see the moon  
Cause I know that it's the same one  
You'll see inside your room

Maybe it'll be alright  
When my mouth is moving faster than my mind  
Cause if I could change a life  
Well then maybe both our souls will shine

Both our souls  
Both our souls  
Will shine

And so I sing the first thing that comes to mind  
Tell me what comes next  
The answer comes in time  
And I am slave to the sound  
Which ever they may bring the world it will spin round

Maybe it'll be alright  
When my mouth is moving faster than my mind  
Cause if I could change a life  
Then maybe both our souls will shine

Both our souls  
Both our souls  
Will shine

Cause I remember when I was younger  
A boy full of wonder  
And I don't recall what made us grow old

I am moved by the sun
