Hard times taking over my life (I cry)
And I'm running out of time
Let put the past behind us now
And I look down upon your life (upon your life)

I see the chance, it's up ahead
Running through the trees
And as the years go by
There in front of me
And don't you feel it now
It's stronger than before
It's all so different now
No pain here anymore

Hard times taking over my life (I cry)
And I'm running out of time
Let put the past behind us now
