It's so hard to believe in
All the complications
There's something to be said here
Get beyond frustration
Looking for a reason
I could use a friend here
Look at what I am now
There's nothing left to say (oh no)

Even if the stars don't fall tomorrow
Even if the sun don't fade away
After all I still love you
After all is stripped away

As the light begins to shine down
I become more alive
Further than expected
Cause it'll be worth it, worth it in the end

Even if the stars don't fall tomorrow
Even if the sun don't fade away
After all I still love you
After all is stripped away

Even if the stars don't fall
If the sun dont fade
After all I still love you
And they cant take that away
No they can't take that away (x2)
