We met the old-fashioned way
Said hello exchanged some names
And then you said goodbye
From there on, my valentine

Another place, another time
No word could justify
The color of your eyes
There on, my valentine

Show me who you are
Now's the time
We've gone so far
My valentine

You are free
Yet you are mine
Forever be
My valentine

Show me who you are
Now's the time
We've gone so far
(My Valentine) x2
