Fly with the wind
And reach out for the sky
Dance with the gods
Be my butterfly

Stay around and live for today
There's nothing much more to say
Hang around, and live for today

What do you say?

Fly with the wind
And reach for the sky
Rollercoaster ride
Take me far away

Over the hills
For another today

Oh you dangerous thing

Stay around and live for today
There's nothing much more to say
Hang around and live for today

What do you say?

Live for today
Live for today
Live for today
Live for today
Live for today
