callous liar
bitter coward
spiteful pessimist
selfish perfectionist

don't pretend
don't be the same
don't feed me lines
be honest with yourself
we're not okay
no one if fine

[chorus]

broken
flawed
striving for perfection

we promptly dispense our judgments
with an apathetic grin
setting ourselves up to triumph
in pointless comparisons
feeding our self-esteem
with our self-righteous arrogance

[chorus]
