Verse one: nas escobar, az the vizuliza

As far back as I can remember, I always wanted to be in  
the firm

I can remember when I first met sosa, it was a glorious  
time

There were wise guys everywhere, we were around  
Twenty one, twenty two at the time

Yeah every place we go, every party

People would stop and stare when we walked in

We would give the doorman a hundred dollars just for  
opening the door

Sosa would give the bartender two hundred dollars just  
for keeping

The ice cold, yeah we were legends and we still are

Two hundred fallen angels, we balling from every  
angle

Heavy bag gold, panamania changed angle

Let's tangle, tabernacles

Ill lukiens coming at you, fuck parus

A billion years b.c., originally black jews

Cashsews honey now roasted, let's kill the colprate

He owe us shit, toe toe toe with that four four bit

Fuck the hoe shit, mercury back tax ? birth? for me

Personally I existed when earth was in need, indeed

Human lifeform transformed from light storms,

poltrons

Electrons nuetrons, iced long

Nights long, reptilaians I'll see y'all in the next

millenium

What world are we really in, amphibians moved to the  
carribean

Underwater force, placed under the court of law

Usually sport warlaw, my mind stay core raw

Fill of ambiants, love fine carats and cars that launch

Nonchalaunt, usually there are jimmies up in the palms

Play low style, guteians change my whole profile

Left the dope pile, bet the guard be around for awhile

Firm islamic, hit the croner of the earth just like a

comet

Verse two: az the vizuliza, nas escobar
