Two thumbs up and I got all I need, baby,

Don't want for nothing.

Got my eyes on a hog, yeah,

A hog gets fat

While his daughter gets slaughtered,

Yeah, but she done me wrong.

Desiring people unchallenging.

Although I know it's undone,

I had her.

God bless analysis.

Did you see what they done?

Traded my soul, soil!

Tell the man that six feet in the hole.

Well will these promises be kind?

Dear soul, kind listener, dream on.

You're just a face away from where I am becoming.

Baby, I need you.

I will worship your shadow.

Beyond below, otherwise the same room.
