Was that all it was, a way to pass some time
a momentary thing, not worth remembering in the
morning
Must you be so cold, like something bought and sold,
Was it just a game,
Would you recall my name if you saw me.

How would it be I wonder,
If we ever meet again
Now that I've been you're love
Is this how it's gonna end
Will we ever be just friends
Learn to live it now and then, oh...

Was that all it was, a night out on the town,
that look decides at will,
the one you need to feel
Did you use me?

How would it be I wonder,
If we ever meet again
Now that I've been you're love
Is this how it's gonna end
Will we ever be just friends
Learn to live it now and then, oh...

Was that all it was, Waaaa.
I'm asking, did you use me , did you use me?
oooh, oooh yeah

Was that how it was
Was that how it was
