I cant help
Digging faster, digging faster
I need help
Digging out of this hole I dug
I cant help
These fictions that my heart keeps making
I need help
Giving back all that Ive taken

This is my purpose
This is my start
This is my failure
This is my fault

(repeat first verse)

I held it for too long
I held it for too long
I held it for too long
Now the timing is all wrong

To breathe
is to know
To feel
is to fight
We know what is wrong
We know were not right (x2)

This is wrong
