They cant believe how young she was
I cant believe how short it took

(But) I will not play the cancer card
I will not play my cancer card

Ill shave my head out of sympathy
Cause I know what it did to me (x2)

This I.V.s got nothing for me
I drank it down til my heart gave out
This I.V.s got nothing for me
I drank it down til my head gave out
Pull it out

Ill shave my head out of sympathy
Cause I know what it did to me (x2)

I cant believe how young I was
I cant believe how strong (long?) she stayed
I cant believe how young we were
I cant believe how sick I got
