Ever since he went away, you havent been in the mood
to play.

Well he was my friend too.

Im still here and I am telling you.

Chorus:

You are a sad little girl and you should not be that way.

Here, let me help you with that black cloud in your way.

You have such a pretty face,

Ive got some flowers for your empty vase.

I heard your smile was in the lost and found.

Lets go get it on the happier side of town.

I can tell by the way you sigh, that youve given up,

Youre unwilling to try.

Come on now, let it go.

Im still here, and I want you to know.

Chorus.

Come hold my hand.
