Chorus:

Put me where you want me to be ! Selah!

Tell me what you want me to do! Selah!

Give me what you want me to have! Do it now!

Left to my own devices, I would waste the day away.

Subject to every whim and care blowing me into the maze.

But I know you have an overview, and are happy to show

Me the way.

All its going to take is a shift of gears,

Steer me away from these unfounded fears.

Chorus.

Let there be a victory.

Let your perfection shine right though me.

Let me be of service, it makes me smile.

Let my light shine bright, make my life worthwhile.

Chorus.

Dont want to tell you how great I am,

Just want to tell you: " I am that I am!"
